

Chemistry Department Agreement for having undergraduate researchers return to the lab:

I wish to bring back the following undergraduate researcher to my lab:

Please state the reason for this student's return (essential project form should be attached to this form):

- a) The student is essential to the project and the work cannot be done remotely
- b) On-site experience is required for their degree
- c) Both

By signing this document, the PI and student affirm that:

The student

- 1) will be closely supervised and will follow all health and safety requirements (read and sign the lab personnel form)
- 2) will complete all on-line trainings **before** coming to campus
- 3) and the members of the student's household are not in a high-risk category for serious illness as defined by the CDC
- 4) will not come into work if they feel ill or have a temperature of >100F

The PI

- 1) will update their Chemistry Department PI form **BEFORE** the student comes to campus to include the student in their rotation
- 2) will comply with all health and safety regulations related to providing PPE for the student, training and reporting of illness
