

X-ray Crystallography

Request for X-ray Structure Analysis of Single Crystal

Date _____

Requested by _____

Group _____

Telephone # _____

Account # _____

Presumed formula and structure of compound:

Solvents used in reaction/crystallization:

Basis for this structure:

Special requirements (low temperature, student desires instructions, etc):

Particular information desired (torsion angles, plane calculations, etc):

Additional comments:

Sample received and examined on _____ at _____

Crystal quality appears _____

Comments _____

Expected date on diffractometer _____
